

Lovettsville Community Center Advisory Board

is working for you!

Did you know that the Lovettsville Community Center has an Advisory Board?

Formed in 1976, the Lovettsville Community Center Advisory Board (LCCAB) has been a partner with us on many important projects that we all benefit from today! The LCCAB started the **preschool** here and operated it for many years. They planted the **memorial garden** out in front of the building. They purchased and installed some of the original **playground** equipment. And the LCCAB was the driving force behind building a **swimming pool** here at the Community Center and raised tens of thousands of dollars to install it.

Today, the LCCAB funds the entire **Independence Day Celebration** and assists staff in organizing and running the events that day that serve more than 2500 people and end in a spectacular display of fireworks! They also fund **preschool scholarships** and have pledged to support the equivalent of 2 full scholarships each year. They are financially supporting the Community Center's efforts to provide more **teen programming** and providing us with seed money to begin a **swimming lesson scholarship fund**.

The LCCAB also supports the development of the **Lovettsville Community Park** and has established a Pennies for the Park fund to help raise money for future improvements like an off-leash dog park, walking trails and community gardens.

This is a great committee that is small in numbers but big in heart!  It is **LOV**ettsville, after all!!! We meet monthly on the first Wednesday of the month at 7:00 pm here at the Community Center. We extend an open invitation to you to join our group and help us continue to grow the opportunities for recreation in Lovettsville.
